IIM-IIFT ALUMNI COMPANY

Vivek Gupta

PGDM-IIM Bangalore (2002-2004), B tech-Delhi College of Engineering(96-2000) Vivek Gupta held senior positions in Coca Cola, American Express before he started his education and digital entrepreneurial journey. He was founding team member of Studyplaces.com, India's first education portal. He followed his passion in Digital & Education space working with brands like Shiksha.com and hotcourses abroad.com. He aspires to contribute to the society at large. Vivek has authored two highly effective books, one for MBA aspirants and other for career options, aptly titled "Crack the CAT" & "Be the CEO of your life" respectively. He was first CEO of a social venture in under privileged education space, Naandi Education Support and Training Private Limited which is funded by Michael & Susan Dell Foundation and Mr. Anand Mahindra. In year 2015, Vivek Founded Global Knowledge Works with a vision to provide knowledge services with assured quality across India in education, healthcare and other domains.

Kaushal Goyal

A professional with 12 years of corporate experience post MBA in International Business from Indian Institute of Foreign Trade (IIFT). He has worked with corporate like Aditya Birla Group, ICICI, IndusInd and HSBC. He has developed expertise in developing franchise businesses in India. He has been training students to crack interviews for admissions to premier educational institutes like IIM's and other B-schools. He has been personal coach to students for career counselling and has been advising students on best career options.

MBBS in Georgia

Georgia is becoming preferred choice for students for their MBBS course. Many of the Georgian MBBS Universities are ranked high in all world surveys for MBBS course. Students can do the MBBS course in 5 or 6 years depending upon the MBBS University that they choose. Most of the MBBS Universities are in the capital of Georgia TBILISI that makes connect with India easy. The flight duration is also short and comfortable. We at GK Works give all the vital data and consultancy benefits that helps the understudies in selecting the right MBBS college in Georgia. MBBS Universities in Georgia follow ECS (European Credit System) and generally 360 credits MBBS course is there. Some of the MBBS Universities in Georgia allow students to finish their 360 credits in 5 years.

Why Study MBBS in Georgia

Georgia is considered to be one of the safest countries in the world. You would hardly ever hear news about any terrorist activity in Georgia. This makes Georgia, a perfect destination for MBBS course.

- Language of instructions in all MBBS Universities is English and 90% of local people also can speak English hence no language barrier for MBBS course when it comes to practical experience. You don't need to learn any local language unlike other countries.
- 95% of Georgian population is Christian and it is very cosmopolitan country.
- 5 years duration option available for MBBS course. So, students who wish to save one year can apply for MBBS Universities offering 5-year course duration
- Georgia is a very beautiful country with one part on Black sea. The landscapes are very charming that makes MBBS course more relaxing and adapting
- Temperature varies from 23 degree Celsius to -7 degree Celsius only. So it is always pleasant that help MBBS students to focus on studies
- Indian Food is available in all MBBS Universities. Separate hostel for Boys & girls & Indian warden available.

MBBS in Ukraine

Ukraine has many world class MBBS Universities. The MBBS course is taught in English medium and is of 6 years duration. The total course fee is reasonable for MBBS course. The reason why Ukraine is becoming the new upcoming study hub for Indian students is due to a good education system, the existence of Ukraine low cost Universities and a great overall study and stay experience. The MBBS course from Ukraine Universities is MCI recognised and WHO approved. Starting June 2018, NEET qualified candidate can only pursue MBBS in Ukraine from India if they wish to come back and practice in India. Most of the Ukraine MBBS Universities provide coaching for MCI exam FMGE along with the course. The cost of studying medicine is low in Ukraine but quality is world class.

About Kazakhstan

Kazakhstan lies in the North of the Central Asian Republics. It is bounded by Russia in the North, China in the East, Kyrgyzstan and Uzbekistan in the South, and the Caspian Sea and part of Turkmenistan in the West. It has almost 1,177 mi (1,894 km) of coastline on the Caspian Sea. Kazakhstan is about four times the size of Texas. The territory is mostly steppe land with hilly plains and plateaus.

The indigenous Kazakhs were a nomadic Turkic people who belonged to several divisions of Kazakh hordes. They grouped together in settlements and lived in dome-shaped tents made of felt called yurts. Their tribes migrated seasonally to find pastures for their herds of sheep, horses, and goats. Although they had chiefs, the Kazakhs were rarely united as a single nation under one great leader. Their tribes fell under Mongol rule in the 13th century and they were dominated by Tartar khanates until the area was conquered by Russia in the 18th century.

The area became part of the Kirgiz Autonomous Republic formed by the Soviet authorities in 1920, and in 1925 this entity's name was changed to the Kazakh Autonomous Soviet Socialist Republic (Kazakh ASSR). After 1927, the Soviet government began forcing the nomadic Kazakhs to settle on collective and state farms, and the Soviets continued the czarist policy of encouraging large numbers of Russians and other Slavs to settle in the region.

MBBS in Kazakhstan

There are many locations around the world to study MBBS for Indian students but Kazakhstan offers diversity and outstanding opportunity not only for the International student, but also for the individual looking for a country and city to make his other mark after achieving quality education. With MBBS schools and programs welcoming International students, the process of obtaining your MBBS education here is easier than one might think. The rewards are numerous, too, especially for an MBBS individual who wants to learn about a diverse culture.

Advantages of MBBS in Kazakhstan

1. 5 year course options available
2. All the MBBS Universities in Kazakhstan have campus hostels
3. Indian food is available.
4. There are direct flights between Indian airports and Almaty, the largest city in Kazakhstan

MBBS /MD course in Philippines

MD course in Philippines (equivalent to Indian MBBS) is very popular among Indian sub-continent students especially from India. Medicine education in Philippines is available only for graduate students and hence the course is known as MD. The MD course duration is 4 years only thus making it very viable in terms of time and cost.

Many MBBS aspirants from India choose MD Universities in Philippines due to below advantages

Advantages of Studying MBBS in Philippines

1. Recognized by Medical Council of India (MCI): Students will get 'Eligibility Certificate' from MCI & can practice in India after appearing for Screening Test. After Graduating students can apply for Government jobs in India and do PG/MD/MS courses in India.
2. Medical Universities listed in the World Health Organization (WHO) Geneva, FAIMER etc. Graduates can apply for license with Medical Councils of more than 180 countries.
3. Full English Medium Teaching for all Faculties
- 4 Affordable education and accommodation
5. American Style PBL Curriculum. Eligible to appear for USMLE.
6. Philippines is the fourth largest English speaking country in the world. Education system similar to that of USA
7. Medical & Nursing education geared towards Employment in USA/ UK and easy to pass USMLE [Medical], CGFNS, NCLEX
8. Since English is the language of communication and language of instruction in Universities, no need to learn another language to talk to patients.

But there is a catch

Universities in Philippines follow American system of education. The medical UG course (India's MBBS) is divided into 2 parts, BS+MD. BS is 2 years course followed by 4 years of MD. Between BS and MD, students need to appear for an exam called NMAT (National Medical Aptitude Test). Students need to score over 40 percentiles in this test to qualify for MD course. Generally, Indian students clear this exam. (Hope you know the difference between percentage and percentile). Your studies continue even if you fail in this exam. But within 3 attempts, you need to clear NMAT. So if you are confident of clearing this exam, go for Philippines. It is the best country to study barring this factor.

Philippines State Medical Universities (Intakes: Oct, Nov: Jan) -- Hostel and Food not included in table, see below.

MBBS in Belarus

Every MBBS aspirant dreams of getting admission in the best government college in India, sadly everybody's dreams do not turn into reality. But, instead of mulling over something you were not able to achieve, you must look forward to the opportunities that promise you an equal chance to excel in your career. This is the point where you should consider opting for MBBS in Belarus.

Belarus is a landlocked country, surrounded on all the sides with other countries. Russia is to the Northeast, Ukraine to the South, Poland to the West and Latvia to the Northwest. On August 25, 1991, Belarus gained independence from the Soviet Union. Though the official language of Belarus is Belarusian, all courses are taught in English, keeping in mind the convenience of foreign students. The manufacturing and service industries make up the greatest part of Belarus's economic sector. As of 2016, the population of Belarus is 95.1 lakhs. Belarus has a distinct climate with hot summers and very cold winters.

Study in Belarus

The continued efforts of the Government of Belarus have resulted in converting Belarus into one of the most desirable destination to study. The higher education institutes such as the Colleges and Universities are equipped with all kinds of modern facilities. After the successful completion of the higher education in Belarus, students are awarded world recognized Bachelors and Masters Degrees.

MBBS in Belarus

The duration of MBBS course in Belarus is 6 years. The medium of teaching for all foreign students is English. In Belarus, a good number of Universities have been recognized by the Medical Council of India, some of which have been listed below in our article. Alongside, studying MBBS in Belarus is very cost effective, if you compare medical studies in India and other countries like the USA, the UK, Australia, China and Russia. The tuition fee, travel expense, accommodation rentals and food expenses; are all very economical in Belarus.

The MBBS aspirant must have scored at least 60% in 12th class and must have qualified the NEET exam to get admission in a medical college or University in Belarus. Different colleges may have different criteria, for further details check our articles on individual colleges in Belarus.

Advantages of studying in Belarus

- The MBBS course is taught in English to all foreign students.
- A good number of colleges in Belarus are recognized by the Medical Council of India.
- No need to appear for any entrance exams (like IELTS/TOEFL/ PTE) to get admission in MBBS in Belarusian Universities.
- MBBS from Belarus is recognized all over the world.
- The well maintained law and order situation in Belarus ensures the safety of MBBS students
- The students can gain practical experience by applying for internships in various medical establishments.
- The cost of studying in Belarus is a lot less than that in Indian private colleges (with almost the same facilities as those provided in good private colleges in India).
- The local people of Belarus have a friendly relationship with the students.

WHAT'S IN KYRGYZSTAN?

Located in Central Asia, Kyrgyzstan undoubtedly surprises travellers with its incredible mountains, nomadic history, tourist attractions and simple life. Bordering with Kazakhstan, Uzbekistan, Tajikistan and China, the country became independent from the Soviet Union in 1991, and the westernisation has made a lot of changes in the recent past. The capital of Kyrgyzstan is Bishkek which is located in the North of the country. The total population of Kyrgyzstan is only 5.2 million with a density of 21 people per Sq. Km. and it is helpful for those who are running away from the crowd and want some peace and seclusion to come out of 'Samsara', the material world. The two official languages of Kyrgyzstan are Russian and Kyrgyz. Inhabitants of Kyrgyzstan are friendly people and they are known for their hospitable nature and their curiousness with foreign travellers. The literacy rate of this country is 97% and the educated minds of Kyrgyzstan have succeeded in dominating many in terms of skills and flourishing career.

WHY MBBS IN KYRGYZSTAN?

Being one of the top destinations to provide MBBS for Indian students, Kyrgyzstan also has doubled the total number of Indian students for medical studies in the last half decade with the rising rate of 21.54% per annum. Alongside, MBBS in Kyrgyzstan is very cost effective if you compare medical studies in India and other countries like the USA, the UK, Australia, China and Russia. What you pay in India per year to study MBBS is just a little less than what you pay in Kyrgyzstan for complete 6-year MBBS to study the same syllabus. Not just the tuition fee but also other expenses like travel expenses, accommodation rentals, food expenses are also relatively very low in Kyrgyzstan than other countries. On top of that, Kyrgyzstan Universities accept direct admissions and the students doesn't require clearing any entrance exam to study MBBS in Kyrgyzstan. Kyrgyz Medical Universities just ask for 50% marks in Physics, Chemistry and Biology from Indian students in the final year of schooling. All the medical colleges in the country teach in English medium and no other languages like Russian or Kyrgyz are used during classes and in the examinations.

Some other unique points of MBBS in Kyrgyzstan

1. 5-year course options available
2. Most of the MBBS Universities of Kyrgyzstan are located in and around Bishkek, the capital of country. This helps MBBS students to travel back and forth to India comfortably
3. All the MBBS Universities in Kyrgyzstan have campus hostels
4. There are direct flights between Delhi and Bishkek operated by Air Manas with total flight time of 3.10 hrs only. The time difference between India and Kyrgyzstan is only 30 minutes. This means when you travel from Delhi to Bishkek for your MBBS University, you would reach in flat 3.40 hrs whereas when you are coming back from your MBBS college of Bishkek to Delhi, you would reach only in 2.40 hrs. So, it is closest to India in terms of travel time.
5. The Bishkek location ensures plenty of food, entertainment options are available for MBBS students along with their studies.

MBBS in Russia

MBBS study in Russia can be given the originator of MBBS abroad options available for Indian MBBS aspirants today. Way back in 1996, few Indian MBBS students went to Russia, came back and were successful in India. Over a period of last 25 years, more than 10,000 doctors have returned back to India. Many have settled abroad working in various hospitals after completing their MD study in Europe. Medical schools for MBBS in Russia are recognized by MCI and opened new avenues for students in India. Last year, low-cost Russia MBBS colleges attracted more than 3,500 Indian students. Medical education in Russia is famous across the globe. Also, Russian MBBS degree in India is valid due to the colleges for MBBS in Russia recognized by MCI.

Some advantages of Studying MBBS in Russia:

1. Russia provides good value for money – students will be able to reap the benefits of studying here much more compared to MBBS in other foreign Countries like China, Philippines or Ukraine.
2. Universities in Russia are much older as compared to those in China, Philippines or Ukraine and are known to have been a high quality of education for a longer period of time.
3. Teachers here are thus more experienced and accustomed in handling international student issues in a much better way as compared to the others.

MBBS in Armenia

Every MBBS aspirant dreams of getting admission in the best government college in India, sadly everybody's dreams do not turn into reality. But, instead of mulling over something you were not able to achieve, you must look forward to the opportunities that promise you an equal chance to excel in your career. This is the point where you should consider opting for MBBS in Armenia. Armenia (or the Republic of Armenia) is situated in Western Asia on the Armenian Highlands. Armenia shares its border with Turkey, Georgia, Azerbaijan and Iran. Armenia gained independence in 1991 after dissolution of Soviet Union. The surrounding mountains mitigate the effect of the hot summers. The cold winters with temperatures ranging between -5 degrees Celsius and -10 degrees Celsius make it a great place for winter sports lovers. The capital city of Armenia is Yerevan. As of 2016, Armenia inhabits 29.2 lakh people. Though the official language of Armenia is Armenian, but the MBBS classes for foreign students are conducted in English. Armenians and Indians also have a shared past, it is said that Armenians had integral positions in the Mughal court of Akbar. The locals in Armenia have a very welcoming attitude towards Indian nationals.

Why you should study in Armenia

All the major cities of Armenia have numerous well established and world recognized colleges, Universities and other educational institutions. International students are provided with the exceptional curriculum taught by proficient teachers and trainers. Armenia features ample educational programs according to the requirement and inclination of the students. After the successful completion of the higher education in Armenia, students are awarded world recognized Bachelors and Masters Degrees.

MBBS in Armenia

The duration of MBBS course in Armenia is 6 years. Foreign students are taught in English. In Armenia, a good number of Universities have been recognized by the Medical Council of India, some of which have been listed below in our article. Alongside, studying MBBS in Armenia is very cost effective if you compare medical studies in India and other countries like the USA, the UK, Australia, China and Russia. The tuition fee, travel expenses, accommodation rentals and food expenses are all very economical in Armenia. The MBBS aspirant must have scored at least 50% in 12th class and must have qualified the NEET exam to get admission in a medical college or University in Armenia. Different colleges may have different criteria, for further details check our articles on individual colleges in Armenia.

Advantages of Studying in Armenia

- After completing the first year of studies a student can apply for internships in various hospitals in Armenia.
- High quality education in MBBS course is ensured through the combination of modern medicine and practical training.
- No need to appear for any entrance exams (like IELTS/TOEFL/ PTE) to get admission in MBBS in Armenian Universities
- Most of the good MBBS colleges are located in the capital city of Yerevan. It makes the commute of students from Armenia to India very comfortable.
- Yerevan being the capital city ensures that there is no dearth of recreational activities and intra-country commute is also very easy.

MBBS IN CHINA

Chinese history has been blessed with medicines and phenomenal healthcare treatments. Herbal medicines, food remedies, acupuncture, acupressure and traditional Chinese medical massage have now developed into a hybrid treatment after blending with modern-day medicine imported from the western world. China has turned out to be the main appeal for global students who're interested in pursuing an education in distinctive disciplines in China. Medical Science is also a specialized line of schooling that is in the excessive call for global aspirants as China offers high teaching standards, thorough learning and eminent career opportunities after MBBS. Many Indian students seek admission for pursuing MBBS in China. The MBBS application process in China is convenient. However, right guidance at every step during admission is essential. Our skilled counsellors deliver free guidance and other assistance required to study MBBS in China.

MBBS in Bangladesh

Every MBBS aspirant dreams of getting admission in the best government college in India, sadly everybody's dreams do not turn into reality. But, instead of mulling over something you were not able to achieve, you must look forward to the opportunities that promise you an equal chance to excel in your career. This is the point where you should consider opting for MBBS in Bangladesh.

Bangladesh (or People's Republic of Bangladesh) is a neighbouring country of India. Besides India, Bangladesh shares its border with Myanmar. Bangladesh is located such that it is an important part of regional cooperation projects. Bangladesh gained independence from Pakistan in 1971 and has become a developing nation with the government continuously working to improve the economic and social status of the people. As of 2016, the population of Bangladesh is 16.3 crores. Bangladeshi people have a friendly attitude towards Indian nationals.

MBBS in Bangladesh

The student must have qualified the NEET exam to get admission in Bangladesh. The following criteria must be met by the student in order to take admission in Bangladesh.

- The student must not have a gap of more than 1 year after the completion of 12th class.
- Minimum aggregate GPA in SSC / 'O' level or equivalent and HSC / 'A' level or equivalent examination : 8.00
- Minimum GPA either in SSC / 'O' level or in HSC / 'A' level or equivalent examination : 3.5
- Minimum GPA in Biology: 3.5
- For calculation of GPA against the marks obtained in SSC/ 'O' level or equivalent exam, only top 5 subjects are considered for calculation of GPA. Therefore, GPA in 'O' level = (total marks obtained in top five subjects)/5.
- For calculation of GPA against the marks obtained in HSC/ 'A' level or equivalent exam, only 3 subjects (Physics, Chemistry and Biology) are considered for calculation of GPA. Qualifying Grade in each subject individually is "C". Therefore, GPA in 'A' level = (total marks obtained in three subjects)/3.

HSC level implies 12th class and SSC level implies 10th class.

Advantages of MBBS in Bangladesh

- The duration of MBBS in Bangladesh is only 5 years. Unlike, other MBBS abroad destinations student get to start their career a year earlier.
- The educational methods and syllabus is identical to that taught in India.
- The cost of studying in Bangladesh is a lot less than that in Indian private colleges (with almost the same facilities as those provided in good private colleges in India).
- The cost of living in Bangladesh is lower than that in India
- No need to appear for any language entrance exams (like IELTS/TOEFL/ PTE) to get admission in MBBS in Bangladesh.
- The local people of Bangladesh have a friendly relationship with the students.

Studying in Nepal

The culture of Nepal is majorly Hindu and Buddhist. This fact, coupled with Nepal's proximity with India makes Nepal a desirable destination to study. The teaching staff in Nepal comprises of a good number of Indian professors. The food habits in Nepal and India are very similar, making it much more comfortable for Indian students to study and stay in Nepal. The language of instruction in Nepal is not an issue because the teaching is in either English or Hindi. One of the most noticeable features of studying in Nepal is that students need not apply for a visa. Indian nationals can travel to Nepal without any Visa.

MBBS in Nepal

Nepal is a developing country with a government which is striving to implement as many healthcare initiatives as possible. This uplift the countries healthcare system and gives MBBS aspirants a chance to face challenging situations to test their mettle. When a comparison is drawn between the private medical colleges in India and colleges in Nepal, the colleges in Nepal have a lower fee.

Entrance exam

The MBBS admission in Nepal is through an entrance exam with few seats available for direct admissions. Unlike India where we now have NEET as common entrance exam, various Nepal Universities conduct their own entrance exams for MBBS admissions in their affiliate colleges.

Below mentioned are the eligibility criteria to appear of the entrance exam in Nepal.

1. Minimum age – 17 years
2. At least 50% marks in the aggregate of English, Physics, Chemistry and Biology in 10th and 12th class from a proper recognized board.
3. At least 50% in practical and theory papers.

Please note that the student must have qualified the NEET exam in order to be able to appear for the MCI screening test, after the completion of MBBS in Nepal.

Advantages of MBBS in Nepal

- The MBBS course is taught is English to all students.
- Almost all medical colleges in Nepal are recognized by the Medical Council of India.
- No need to appear for any language entrance exams (like IELTS/TOEFL/ PTE) to get admission in MBBS in Nepal.
- MBBS from Nepal is recognized all over the world.
- The students gain practical experience by applying for internships in various medical establishments.
- The cost of studying in Nepal is a lot less than that in Indian private colleges (with almost the same facilities as those provided in good private colleges in India).
- The local people of Nepal have a friendly relationship with the students.

MBBS: The only Course that Guarantees Career in India

MBBS or undergraduate course in medicine is the most sought-after course for any Indian student/ parent. The social status attached with this career makes it most prestigious course in Indian society. Every year, over 12 lakh students appear for 3 entrance exams (NEET, AIIMS, JIPMER) to fight for about 55,000 seats across India. Out of these 3 exams, AIIMS and JIPMER exams offer close to 900 seats thus making NEET responsible for rest of seats.

NEET scores are given in percentile system along with absolute score out of 720. Student is given national score, national rank, national percentile, category rank, category percentile and finally state ranks and state percentile. Though it varies from state to state, broad benchmarks are

1. Students should get over 98 percentile score for guaranteed government seat
2. Students should get over 90 percentile for having a chance in private colleges. Also, the family should have budget in excess of Rs50 lakhs for most of private colleges

So if a student percentile is less than these scores, there is no chance for any Indian seat. The various alternative options then are

1. Drop a year and prepare for next attempt
2. Change the career
3. Explore the options of abroad countries like Russia, Philippines, Georgia, Ukraine, China, Kazakhstan, Bangladesh, Belarus, Armenia (mostly Ex USSR) where you can pursue a MCI recognised, WHO approved course in total budget of 15 to 25 lakhs (including food and stay)

What We Do :

We offer end to end support for students to reach their dream MBBS university

- In-depth Profile Assessment to find the best fit (Country and University)
- Admission application to University
- All Government formalities like MCI registration and document apostation
- File Preparation and Quality Check of Visa File
- Country culture orientation, forex arrangement and departure assistance
- Pick up at the destination Airport
- Local Guardianship for the entire course duration ensuring best quality food and accommodation
